

Dear Regional Science Fair/STEM Expo Participant and Family:

Congratulations! Getting to the Regional S.T.E.M. Expo is a major accomplishment. You have done well at your school science fair and you are coming to the Yukon/Stikine Regional S.T.E.M. Expo at Yukon University on Wednesday, April 8<sup>th</sup>, 2026.

***IMPORTANT: Each student/family must register their project and complete the media release form online using the links provided by their teacher.***

***Please note the following important dates:***

**Tuesday, April 7:** Project set-up and registration takes place on Wednesday between 3:30 and 6:00 PM - Check in at Room C1440 (The “Glass Class” on the ground floor of YukonU).

At registration you will receive your judging time and be assigned to either Group A or B. You must know what group you are in for judging and the science activity on Thursday morning.

**Wednesday, April 8:** Students should aim to arrive between 9:30 and 9:45 am. A supervised area for students will be available if families need to drop off students earlier, starting at 8:30 am. Students should bring a book or something to do during that time.

Project judging takes place in Rooms C1530 and C1440 at YukonU; the student science activities and demonstration show takes place in ‘The Pit’ near the main entrance. There will be signs to direct students. Please read the attached schedule carefully.

It is expected that students will stay beside their project during the public viewing session between 11:30 – 12:30 PM, except when they are judging the Student Choice Award.

We are pleased to announce that all students will be provided with a pizza lunch and juice during the public viewing. Students are welcome (and encouraged) to bring other snacks and drinks to have throughout the day.

Parents and/or guardians are responsible for the supervision of your child throughout the day.

Sincerely,

Yukon Stikine Regional Science Fair Registration Team
